TRAINING

computer science
University of Havana

09/2018 - 10/2021,   *Havana Cuba*
courses

- 3rd Year Science of Computing

WORK EXPERIENCE

Freelance Web Developer
GlamUpCuba

03/2023 - Present,   *Hialeah Gardens, FL USA*
Shein Online Orders and Shipping to Cuba

Achievements/ Functions

- I developed an administrative page for my own business based on orders from the Shein online store and sales in Cuba.

- I used a back-end API in .NET 7 to interact with the Shein API and make queries.

- I hosted the project on AWS EC2, configuring and deploying the application in the production environment.

- The front-end was developed using the React library and was hosted by Hostinger under the domain glamupcuba.com.

- I developed a bot on Telegram to facilitate direct and easier communication with the back-end API.

- It is still in development and testing of more functions of the administrative page.

Web developer
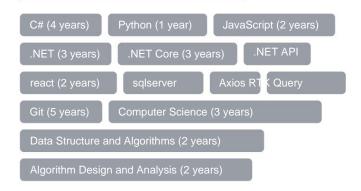

MMS Agency LLC

11/2022 - 02/2023,   *Florida, United States*
Marketing for small and medium businesses

Achievements/ Functions

- I participated in the development of web applications using the .NET 7 MVC framework for the backend and React for the frontend.

- I worked on the design and development of databases using SQL Server and MySQL.

- I worked as a team with other developers and designers to maintain other projects

TECHNICAL SKILLS

C# (4 years)   Python (1 year)   JavaScript (2 years)

.NET (3 years)   .NET Core (3 years)   .NET API

react (2 years)   sqlserver   Axios RTK Query

Git (5 years)   Computer Science (3 years)

Data Structure and Algorithms (2 years)

Algorithm Design and Analysis (2 years)

PERSONAL PROJECTS

Marina Manager (09/2019 - 12/2019)

- I developed a personal project called "Marina Manager", using .NET 3 MVC as a framework in the backend.
- I worked on the design and development of the database using SQL Server.
- I used Entity Framework for the communication between the backend and the database.
- I implemented functionalities such as marina management, mooring reservations and user administration.

LaVenduta (09/2020 - 02/0221)

- Using the UML Model in software engineering.
- I used .NET Core 2 MVC as a framework in the backend for the creation of the website.
- I worked on the design and development of the database using SQL Server.
- I implemented shopping cart, product management and user authentication functionalities.
- I used Entity Framework for the communication between the backend and the database.

CERTIFICATES

12th Grade (09/2015 - 08/2018)

3rd Year Computer Science (09/2019 - 09/2022)

LANGUAGES

Spanish
Native or Bilingual Proficiency

English
Elemental Competition
