WORK EXPERIENCE

Siemens AG

Mar. 2020 – Present

Product Owner - Digitalization SCM, Oct. 2020 - Present

Munich, Germany

- Lead development of digitalization products for procurement division
- Collaborate with cross-functional teams (developers, designers, stakeholders)
- Define, prioritize, and manage requirements and product backlog
- Ensure alignment with customer needs, business goals, and user experience
- Gather feedback and identify improvement opportunities
- **Achievements:** As a Product Owner, I managed the development of a sustainability-measuring prototype in SCM and later executed a global rollout of the finalized product, reaching over 5,000 users with quarterly releases. I also digitalized two previously analog processes, improving acceptance rates and efficiency, and integrated the Snowflake platform for enhanced capabilities.

Strategic Procurement Working Student, Mar. 2020 – Oct. 2020

Munich, Germany

- Supported internal marketplace implementation and developed training materials
- Prepared data and collaborated with team to enhance user experience

KPMG

Oct. 2019 – Jan. 2020

Consulting Project Student

Munich, Germany

- Assessed criteria for innovation evaluation, ensuring effective measurement

Optimy

Apr. 2019 – Oct. 2019

Product Specialist Intern

Brussels, Belgium

- Creation of functional specifications for new features and functionalities acting as interface between sales, customer service, and software developers. Design of an end-user-oriented help center.
