

Jonahs Duran

PRODUCT MANAGER

Employment History

Product Manager , Minds With Purpose, Lawrence

MAY 2023 – NOVEMBER 2023

Minds with Purpose is a digital community for multicultural entrepreneurs & businesses.

- Drove a 15% growth in new member sign-ups through targeted marketing campaigns, referral programs, and optimization of the onboarding process.
- Spearheaded initiatives to enhance user engagement, resulting in a 20% increase in Monthly Active Users (MAU) within a quarter.
- Initiated and facilitated three new collaborations and partnerships with external organizations, expanding the community's reach and fostering valuable connections.
- Led the collection and curation of success stories and testimonials, showcasing the platform's impact on business growth.

Web Developer, Twenty8 Digital, Miami, FL

MARCH 2018 – PRESENT

- Designed and developed customized websites for 25+ clients with WordPress, Shopify, Wix, and Webflow.
- Scaled organic monthly website traffic by creating and executing SEO strategies, including keyword research, on-page optimizations, and link building, resulting in an average increase of 30% in website traffic and a 20% improvement in conversion rates.
- Provided comprehensive technical training and user support by creating helpful documentation and instructional videos, ensuring a smooth and efficient user experience.
- Managed and efficiently addressed support tickets from both users and business owners, ensuring prompt resolution of issues and high-quality customer support.

Associate QA Engineer, Motus, Boston

MAY 2021 – OCTOBER 2023

- Planned, designed, and executed comprehensive test cases including unit testing, functional testing, end-to-end testing, regression testing, API testing, and user acceptance testing for our SaaS products and mobile app, ensuring a 98% defect-free release.
- Effectively communicated test results to all stakeholders involved in the product team including engineers, product owners, scrum masters, third-party vendors, and customers leading to increased collaboration and timely bug resolution.
- Participated in daily scrum meetings as a core member of the agile team, collaborating with development and project management teams to identify and troubleshoot bugs, resulting in a 20% decrease in overall product defects.
