

# Raul Sanz

Full Stack Developer  
Bronx New York

615-800-5936

[raulsanz.engr@gmail.com](mailto:raulsanz.engr@gmail.com)

## SUMMARY

Full Stack Developer with over 7+ years of experience, I have honed my expertise in creating large-scale web applications utilizing cutting-edge technologies such as JavaScript ES5/ES6, ReactJS, NextJS, and Node.js. My proficiency in database management systems, including SQL, MySQL, PostgreSQL, and GraphQL, has enabled me to successfully develop and revamp a diverse range of websites and web applications.

I pride myself on forging strong, long-lasting relationships with clients and teammates, which I believe is crucial for delivering high-quality work. My passion for UI/UX-centered development drives me to stay up-to-date with the latest industry trends and techniques, ensuring that my projects not only look great but also provide an exceptional user experience.

## EXPERIENCE

### **Senior Full Stack Developer (Remote)    Mar 2020 - Present** **MFGX LLC**

- Full-stack software development experience, including application design, development, debugging, and testing across multiple platforms
- Expertise in web development technologies such as HTML5, CSS3, SASS, JavaScript, Typescript, ReactJS, Redux, Ajax, and JSON
- Experience creating Single Page Applications (SPA) using ReactJS and working with services to access data for UI components
- Strong knowledge and experience working with SQL and relational databases like MySQL, as well as NoSQL databases like MongoDB
- Familiarity with MVC/MVM frameworks
- Experience working in agile/scrum methodologies
- Collaborated with SQA teams to fix bugs and ensure cross-platform compatibility
- Ability to troubleshoot and fix bugs in web applications.

### **Full Stack Developer** **Zachary Piper Solutions**

**Mar 2018 – Feb 2020**

- Developed Single Page Applications using the MERN (Mongo DB, Express.JS, React.JS, Node.JS) stack.

- Proficient in HTML, JavaScript, CSS3, React.js, and Rest APIs.
- Successfully migrated an application from Vanilla JS to React JS.
- Designed the user interface, interaction scenarios, and navigation based on requirements and use cases.
- Developed client-side validation code using JavaScript and JQuery.
- Worked collaboratively with clients to design layouts and color schemes for their websites and implemented those using HTML/CSS & JavaScript.
- Created a JavaScript framework as a wrapper on top of jQuery and AJAX based on UI Configuration widgets.
- Developed UI and plug-ins using JavaScript, HTML, CSS, and XML.
- Expert in SASS, used throughout the site, both as in-line and imported files, and resolved various compatibility issues.
- Followed design processes upon client approval, building out all assets, including buttons, product shots, and UI components.
- Overhauled the codebase from class-based components to functional components and implemented a state management library for data synchronization.

**Front End Developer  
Endeavour Business Media**

**Oct 2015 – Jan 2018**

Endeavor Business Media Co. Nashville, TS, USA. The company's project was based on design and developing their own framework to design and build websites. The project was based on NEXT Js, React, Vlte, GraphQL, mongoDB Node js.

- Worked on UI designs using React
- Resolve CSS design issue in the previous built designs
- Developed new blocks for data
- Called GraphQL api and manipulate data for user
- Developed UI design using React and fetch data from graphql apis a
- Experience with Next Js framework
- Resolved CSS design issues from the previous build designs
- Developed new blocks for the Content Management System
- Usage of GraphQL and apollo (I am forgetting the name of that software which we were using please replace "apollo" it if it is not apollo)

- Developed UI/UX designs using React
- For enhanced server side rendering used NextJS framework

## **SKILL SET**

- JavaScript (8 years)
- Vue.js (7 years)
- PostgreSQL (5 years)
- Sql (4 years)
- Node.js (6 years)
- Angular (7 years)
- JQuery (5 years)
- GraphQL (5 years)
- React (8 years)
- Database technology (MongoDB, MySQL) 7 years
- JavaScript and JS Frameworks (Angular, React) 7 years

## EDUCATION

Oct 2011 – July 2015

**Tennessee State University**  
**Noushville TN**

Bachelors in Computer Science
