SENIOR SOFTWARE ENGINEER / SOLUTIONS ARCHITECT:

- 15 years of experience as Software Engineer building software solutions from business requirements or simple ideas.
- Experience designing and building High-Traffic, Low-Latency Restful APIs
- Strong technical knowledge building complex software architecture
- Experience building web and desktop applications. Saving thousands of dollars in human effort.

FRAMEWORKS & LANGUAGES:

Visual Studio.net, C#, ASP.net, MSSQL, Azure, AWS, XML, SOAP, JavaScript, RESTful API, TypeScript, Docker, GitHub, HTML5, CSS3, Python, Angular, Postman, React, Next Js, Mongo DB, PostgreSQL, MySQL, EC2, S3, RDS, Vue JS, Scrum, LINQ, Jira, JSON, Entity Framework, PHP

OTHER SKILL:

- Business Analysis, Solutions Architect
- Design database schemas that support the largest business model MSSQL, MySQL, PostgreSQL and MongoDB
- AWS, EC2, S3, RDS, Windows, Linux, Load Balancing
- SFTP, FTP, Web Services and API
- EDI domain knowledge
- 200% Backend Developer
- 100% Team Player.

Norwegian Cruise Line – Sr Application Developer. (April 2021 - Present).

- Involved in Software Development Life Cycle like Requirement Analysis, Design, Implementation and Testing.
- Designed and developed various abstract classes, interfaces, classes to construct the business logic using C#.NET.
- Used Web API as an ideal platform in building Restful applications on .NET Framework Using SQL server 2019 database as back-end along with the Entity Framework and LINQ to access the databases.
- Monitored application performance in production and non-production environments.
- Collaborated within a scrum team to deliver releasable, high-quality, high-value increments to maximize team velocity.
- Migrated existing MSSQL server and Web Applications to the cloud (AWS).

Health System One. healthsystemone.com

Lead Software Developer (Visual Studio/C#/MSSQL/ Full-Stack.) May 2016- April 2021

- Extracted all business requirements, deployed into a JIRA project as software requirements to work on agile environment.
- Implemented a customer face Web Application, Custom company ASP.Net back-end and RESTful API. (Visual Studio, c#, MSSQL, HTML5, CSS3, Angular, JavaScript)
- Deployed the solution over Cloud architecture. (Load Balancing, EC2, S3, RDS, Route53, CES)
- Implemented all data integration, data storage, data modeling, data warehousing, data mining, data analysis, and data visualization. Using multiples data partners / sources.

Ceropin LLC. Application Developer. (Dec 2014 - May 2016).

- Performed requirement analysis conversing whit the clients and decide theme layout of website.
- Implemented algorithm to manage large amounts of email and SMS notifications.
- Developed c# class to advanced image processing (Rotate, Re-size, Crop, Tag).
- Developed an API using Oauth2.0.
- Provided server maintenance and registration of websites to several search engines.
- Documented technical specifications and project reports.

Desoft – La Habana, Cuba. Visual Studio.net Web developer. (April 2010 - Dec 2014).

- Designed and developed diverse websites ranging from e-commerce, banking, stock and share trading, etc.
- Performed bug verification, release testing, and software and system testing.
- Documented project and product specifications.
- Re-work for existing websites and applications to ensure that they meet the latest technology and web standards.
- Provided troubleshoot assistance and training.

Bachelor of Science in: Computer Engineer. 1999-2004.

Technological University of Havana, ISPJAE/ CUJAE

ADDITIONAL CERTIFICATIONS:

- Python 3. 2018 (Coursera)
- Advanced c# and MSSQL. (Miami Dade College)
- Project Management fundamentals. (Miami Dade College)
- Introduction to Microsoft Project 2010. (Miami Dade College)
