Profile

Innovative and results-driven Full Stack Developer with extensive experience in both frontend and backend technologies. Proficient in crafting dynamic, responsive web applications using modern frameworks and technologies, including Django, Python, HTML/CSS, and React.js. Adept at implementing scalable solutions and optimizing user experiences through intuitive design and efficient code. Known for problem-solving skills, attention to detail, and ability to work collaboratively in fast-paced environments. Passionate about leveraging technology to drive business goals and enhance user satisfaction

Professional Experience

2024 – 2024

malappuram, india

Intern

Brototype

- Gained hands-on experience in building real-world full-stack projects, focusing on Django for backend development and React.js for frontend.
- Enhanced problem-solving skills through active involvement in project-based learning and collaborative development.
- Developed a strong work ethic by adhering to disciplined project timelines and consistently delivering high-quality, maintainable code.

Projects

2024/08

E-commerce-project [🔗](#)

shoespectra

Technologies Used: Python, Django, HTML, CSS, JavaScript, AJAX

- Developed a dynamic e-commerce web application specializing in footwear.
- Implemented features for product management, including variant handling, size categories, and color options.
- Integrated AJAX for seamless user interactions, including product status toggling and real-time updates.
- Built a user-friendly admin interface for managing product listings, categories, and inventory.
- Designed a wishlist functionality for users to save their favorite products.
- Utilized Django MVT architecture for efficient backend operations and HTML templates for frontend design.

JobPortal [🔗](#)

Duration: 04-2023 to 05-2023 | Technologies: Python, Django, HTML, CSS, JavaScript,

Bootstrap

- Developed a job portal where employers can post job openings, and job seekers can create profiles and submit applications.
- Enabled employers to review candidate profiles and resumes, facilitating the selection of suitable candidates.
- Built a responsive user interface using Bootstrap for enhanced user experience across devices.
- Leveraged Django for backend management, including user authentication and job listing functionality.

WeatherApp [↗](#)

Technologies: React.js, API, HTML, CSS, JavaScript, Axios

- Developed a responsive weather application displaying current weather conditions such as temperature, humidity, wind speed, and weather icons for user-specified locations.
- Integrated external APIs using Axios for real-time weather data retrieval.
- Ensured the application worked seamlessly across both desktop and mobile devices.

Certificates

Typing Certificate – RataType [↗](#)

- Achieved 84 WPM with 100% accuracy, certified by RataType.
- Demonstrated proficiency in typing speed and accuracy, contributing to efficient and error-free coding and documentation.

Leetcode Badge [↗](#)

- Successfully completed 50 consecutive days of coding challenges on LeetCode, enhancing problem-solving skills and algorithm proficiency.
- Demonstrated commitment to continuous learning and improvement in competitive programming.
