Professional Summary

I'm a dedicated software developer with 2.7 years of experience in .NET, SQL, and Angular. Proven ability to design, develop, and optimize scalable web applications. Skilled in problem-solving, troubleshooting, and delivering high-quality solutions. Committed to continuous learning and staying up to date with industry best practices.

Skills

Technologies	Tools / Version Control
- C# - ASP.NET .NET Core - Web API - Entity Framework - LINQ - SQL Server - Azure Functions - Angular - Html5, CSS3	- Visual Studio (2022,2019) - VS Code - SSMS - Source Tree - GitHub - Postman - Git (Proficient with Git commands)

Professional Experience

Software Engineer | Orion Innovation – Coimbatore   **May 2023 - Present**

Bankuet

Project Summary:

Bankuet ensures that everyone has enough to eat. Our technology converts donations into the commodities that food banks use the most. Bankuet deliveries are explicitly requested, ensuring that nothing goes to waste.

Obligation:

- Enhanced the backend codebase by improving dependency injection practices, implementing robust validation mechanisms, and refining API controller logic to ensure maintainability and scalability.
- Developed and implemented a robust authentication and authorization solution using ASP.NET Core Identity, ensuring secure access control and enhancing application security.
- Developed and implemented Azure Functions to automate email notifications and perform data insertion based on specific requirements.
- Designed and optimized SQL Server databases, including writing complex queries, stored procedures, and triggers Used GIT repository (Git Lab) to maintain the code-related data.

Technologies: .Net Core Web API, Angular, SQL, Azure Functions.

Associate Engineer | Orion Innovation - Coimbatore   Mar 2022 - Apr 2023

Tennis Australia

Project Summary:

Developed and enhanced a web application for player and club management to manage player profiles, administer clubs, and assess and handle overall operations.

Obligation:

- Added multiple features to the Application by creating Angular components, services, pipes, guards, and modules.
- Enhanced various sections of backend code (.Net) with regard to dependency injection, validations, and API Controller.
- Handled client meetings and demonstrated the developed features to the client during the Sprint Review.
- Followed Agile Methodology (JIRA) in the Project.
- Used GIT repository (Git Lab) to maintain the code-related data.

Technologies: .Net Core Web API, Angular, SQL, Windows Service.

Languages

- English
- Tamil

Awards and Recognitions

- Achieved Star of the Month twice during my course in Orion Innovation.
- Earned Full Stack Badge in the test conducted by Orion Innovation.

Education

Qualification	Period	GPA	School/University
B.Tech Information Technology	2022	8.1	Dr N.G.P Institute Of Technology
