yamila.morejon@gmail.com

Professional Profile:

Full-Stack Developer with a **Bachelor's degree in Informatics Engineering** and over 5 years of experience in technologies such as **.NET Core, Angular, React, Node.js**, and **SQL Server**. I have participated in the design and implementation of scalable, high-performance solutions, with experience in microservices development and service-oriented architectures. Focused on continuous code quality improvement, performance optimization, and process automation through **CI/CD** on platforms like **Azure DevOps** and **Docker**. Experienced in writing unit and functional tests using tools such as **Jest, NUnit, xUnit** to ensure high-quality products.

Professional Experience:

Software Developer
GT Motive
06/2023 - Present
Miami, FL

• Full-stack development of a work order management application, using Angular for the frontend and .NET Core for the backend, creating a modern and scalable solution.

• Integration of **SQL Server** as the database, ensuring efficient querying and handling of large data volumes.

• Development and implementation of microservices in **.NET Core**, improving scalability and maintainability of the solution.

• Creation of CI/CD pipelines in **Azure DevOps** for automated deployments, reducing delivery time.

• Execution of unit and functional tests with **xUnit, Postman**, and **Jest** to ensure code quality and product reliability.

Software Developer
Sandav Consultores
03/2022 - 06/2023

• Full-stack development of a work order management application with **Angular** and **.NET Core**.

• Implementation of microservices to handle different application modules, ensuring system scalability.

• Collaboration on unit and functional test creation using **NUnit** and **Postman**, increasing test coverage by 30%.

• Design and deployment of solutions through **Azure DevOps**, optimizing delivery cycles with automated pipelines.

Software Developer
Lynxview
02/2021 - 03/2022

• Development of new features and bug fixing for commercial management applications, using **HTML, JavaScript, CSS, Vue.js, Node.js, TypeORM**, and **GraphQL**.

• Full-stack development of a sales management application, using **React** for the frontend and **Node.js** with **Express** for the backend, creating a modern and scalable solution.

• Optimization of applications by improving code efficiency, resulting in a 20% performance increase.

Software Developer
AREAIMASD
04/2019 - 02/2021

• Development and maintenance of sales management applications for

restaurant POS terminals, using **AngularJS, Node.js, PHP (Laravel)**.

• Implementation of a virtual command system for Android with **Cordova** and **SQLite**.

• Development of websites using **WordPress** and **PHP**.

Education:

Bachelor's in Informatics Engineering

September 2012 – July 2017

Technical Skills:

• **Frontend**: Angular, React, Vue.js, JavaScript, HTML, CSS, Bootstrap, Angular Material, Tailwindcss.

• **Backend**: .NET Core, Node.js (Express), PHP (Laravel, Symfony).

• **DevOps**: Azure DevOps, Docker, Kubernetes (AKS).

• **Databases**: SQL Server, MySQL, SQLite.

• **Testing & QA**: Jest, NUnit, xUnit, Postman.
