- Utilized React, Node.js, Express.js, MySQL, PHP, WordPress.

WORK EXPERIENCE

Customer Success Specialist

Feb 2025 - Apr 2025

HelloGov AI

Boston, MA

- Provided live Zoom support to resolve escalated customer issues, clearly communicating solutions and next steps.
- Assisted over 30 users daily with portal difficulties, troubleshooting technical issues, and enhancing customer satisfaction.
- Collaborated with developers by providing feedback on application and user errors to improve system functionality and user experience.

Full Stack Developer

Oct 2023 - Sep 2024

PYMNTS

Boston, MA

- Developed key projects, including a calculator tool for a major financial company and app ranking pages for data insights.
- Maintained and improved custom Node.js and React applications to ensure platform stability, usability, and performance.
- Automated routine processes, reducing the need for manual data collection and enabling teams to prioritize high-value tasks.

Associate Technical Account Manager

Jan 2022 - Dec 2022

UiPath

New York, NY

- Resolved technical challenges by troubleshooting installations, assisting with platform upgrades, and by providing performance suggestions, resulting in smoother client operations.
- Reviewed and optimized RPA code with clients to improve automation workflows and minimize downtime.
- Delivered training and feedback sessions, increasing client proficiency with UiPath products.

Behavioral Health Counselor

Feb 2020 - Feb 2021

Jessie Trice Community Health

Miami, FL

- Provided therapy sessions to students at local elementary schools, leading to observable improvements in behavior, higher attendance rates, and improved scores on behavioral assessments.
- Collaborated with parents, teachers, and students to develop and implement holistic treatment plans.

EDUCATION

BrainStation
