

## PRITISHA KUMAR PATIL

Mobile: +1 (414) 739 8712 | E-Mail: pritishakp@gmail.com | Location: Milwaukee, WI

LinkedIn: <https://www.linkedin.com/in/pritisha-patil-574127185/>

### RPA Developer

Strong background of 3+ years in **designing and deploying end-to-end automation solutions** using **UiPath, Automation Anywhere, and Power Automate**. Skilled in process optimization, workflow design, and system integration, with expertise in Python, Core Java, SQL, C#, VB.NET, and web technologies. Proven track record in improving operational efficiency, including reducing processing time by 60% and enhancing data accuracy through document understanding frameworks and OCR. Proficient in **RPA project management** using **Agile methodologies, version control (Git), and testing frameworks (UiPath Test Suite)**. Strong collaborator with excellent problem-solving, leadership, and mentoring skills.

#### Areas of Expertise

Robotic Process Automation (RPA) • UiPath, Automation Anywhere • WorkFusion • AI/ML Integration • Cognitive Automation • Cloud Automation • Automation Frameworks • Error Handling • Process Mapping • Task Automation • API/Web Services Integration • Process Optimization • Problem-Solving • Analytical Thinking • Attention to Detail

### TECHNICAL SKILL SET

- RPA Tools:** Proficient in UiPath Studio, UiPath Orchestrator, Automation Anywhere, and Power Automate for end-to-end process automation and workflow optimization.
- Programming & Scripting Languages:** Expertise in Python, Core Java, JavaScript, SQL, HTML, CSS, C#, VB.NET for automation script development and customization.
- Automation Expertise:** Skilled in process automation, designing efficient workflows, deploying bots, and implementing robust error handling to ensure seamless operations.
- Database Management:** Strong experience with MySQL and Oracle databases, leveraging SQL for data management and retrieval.
- Development Tools & Technologies:** Familiar with Git for version control, JIRA for project management, and Agile methodologies to ensure timely and efficient delivery of RPA solutions.
- Data Analysis & Business Intelligence:** Proficient in ETL processes, data visualization, and data modeling with tools like Informatica, Power BI, Tableau, and Excel for informed decision-making.
- Software Development Tools:** Hands-on experience with Visual Studio, Android Studio, Eclipse, PyCharm, and MS Office suite for a wide range of development and analytical tasks.
- Soft Skills:** Strong problem-solving capabilities, collaborative team player, multitasking ability, attention to detail, and leadership skills to drive successful automation initiatives.

### ACADEMIC DETAILS

**Master of Science in Information Technology Management | GPA: 3.80/4.0**

*University of Wisconsin-Milwaukee, Sep 2022 – May 2024*

**Bachelor of Technology in Computer Engineering | GPA: 7.87/10**

*University of Pune, India, Aug 2017 – Jul 2021*

### CERTIFICATIONS

- Robotic Process Automation Foundation and Advanced Developer Certification
- Google Analytics Certification
- Tableau Certification (Simplilearn)
- Career Essentials in Data Analysis and Business Analysis (Microsoft & LinkedIn)

### EMPLOYMENT DETAILS

**RPA Developer | Allstate, USA | Jan 2024 – Present**

- Designed and deployed RPA solutions using UiPath and OCR, reducing claims processing time by 60% and achieving 99% accuracy.
- Implemented document understanding frameworks to extract and validate data from unstructured documents, enhancing data accuracy.
- Developed Performer-Dispatcher model-based workflows for high-volume claims data, optimizing task delegation and execution.
- Integrated RPA workflows with mainframe systems, APIs, and cloud environments to improve system interoperability.
- Automated compliance reporting and fraud detection, reducing reporting times by 80% and enhancing proactive fraud identification.
- Engineered modular workflows with exception handling and Orchestrator scheduling for scalable, high-volume operations.
- Collaborated with stakeholders to identify automation opportunities, improve bot performance, and drive continuous improvement.

**Associate Software Engineer | Price Waterhouse Coopers (PwC), India | Aug 2021 – Aug 2022**

- Delivered end-to-end RPA projects using UiPath, applying advanced techniques such as screen scraping, OCR, and API integrations.
- Integrated custom HTML and Excel Macro code to enhance workflow flexibility and dynamic automation.
- Managed bot deployment, scheduling, and monitoring in UiPath Orchestrator, ensuring effective exception management.
- Led process mining initiatives to identify automation opportunities and optimize RPA solutions for evolving business needs.
- Conducted rigorous testing (unit, integration, and UAT) using UiPath Test Suite to ensure high-quality deployments.
- Collaborated in Agile processes to deliver RPA projects aligned with business objectives.

**RPA Developer | Zensar Technologies, India | Jan 2020 – Jul 2021**

- Developed automation solutions using Automation Anywhere and Power Automate, focusing on efficient deployment and workflow design.
- Created custom automation scripts with C#, VB.NET, and SQL to enhance system integration and capabilities.
- Trained and mentored junior developers, promoting RPA best practices and continuous improvement.
- Managed version control and project tracking with Git and JIRA to ensure a structured and efficient development process.
