SUMMARY

Senior Software Engineer specializing in Full Stack development with a strong background in Angular and .NET. Proven success in delivering scalable web applications and leading feature-rich solutions that drive business impact and user satisfaction. Experienced in designing and implementing CI/CD

EXPERIENCE

Sr Software Engineer

Jul 2022 - Current

UKG Inc, Weston, FL

- Contributed to the Customs Automation team, leading the migration of multiple legacy applications from .NET Framework to .NET Core and scalable SaaS solutions in Google Cloud Platform (GCP).
- Managed and maintained both SaaS applications and legacy systems, ensuring operational continuity and successful modernization.
- Developed and enhanced multiple web applications using Angular 16, Material Design, and Kendo UI, delivering intuitive, responsive user interfaces.
- Implemented backend services using .NET Core and Razor Pages, supporting robust performance across diverse projects and deployment environments.

Full Stack Software Engineer

Mar 2021 - Jul 2022

FirstService Residential, Dania Beach, FL

- Spearheaded the migration from legacy systems to a modern Angular-based web application, leveraging .NET Framework and .NET Core to build scalable backend APIs.
- Designed and developed dynamic web interfaces using Angular and .NET technologies, enhancing performance and user experience.
- Implemented efficient RESTful APIs, improving data retrieval speed by 25% and streamlining cross-platform integration.

Sr Web Application Developer

Mar 2018 - Mar 2021

Chenmed, Mami Gardens, FL

- Contributed to the development of a comprehensive internal web application supporting employee health tracking, project documentation, surveys, and complaint management across departments.
- Built scalable RESTful APIs using the Phalcon PHP framework to enable secure data access and integration with InfoSec and internal analytics teams.

Web Developer

Jan 2018 - Jul 2018

Revelex Corporation, Boca Raton, FL

- Developed and maintained backend solutions for multiple clients

pipelines to automate deployments, accelerate delivery cycles, and ensure high-quality releases. Passionate about clean code, collaborative development, and innovative technologies that elevate digital experiences.

across diverse industries, including rewards programs, cruise bookings, and airline ticketing systems.

- Delivered new feature implementations that enhanced functionality, improved customer experience, and supported scalable integrations for high-traffic environments.

Web Developer

Jun 2017 - Dec 2017

Smart Pelican Technologies Group, Fort Lauderdale, FL

- Engineered robust RESTful APIs that powered data delivery to a mobile application, optimizing performance across diverse company environments.

Senior Odoo ERP Developer

Nov 2014 - May 2016

Quanam (Atel S.A.), Montevideo, Uruguay

- Designed, developed, and maintained enterprise software solutions for CRM, quotations, procurement, payments, and financial modules, including Accounts Receivable and Accounts Payable.
- Led a cross-functional team in the technical architecture and feature design of new enhancements, ensuring scalability and alignment with business goals.
- Expert in Odoo ERP development, delivering tailored business solutions that improved operational workflows, productivity, and client satisfaction.
