West Palm Beach, Florida

Experienced Full Stack Developer with over 9 years of building scalable backend systems and interactive frontend applications. Specialized in .NET (C#), SQL Server, and API integration, with strong proficiency in Angular. Effective in Agile teams, focused on delivering clean, optimized code and driving technical excellence across the software development lifecycle.

CORE COMPETENCIES

- Skilled in integrating APIs (.Net, C#) and third-party services to expand web functionality and enhance user engagement.
- Expertise in developing high-performance web applications using Angular framework.
- Proficient in implementing reactive programming techniques to create responsive and scalable web applications.
- Experienced in participating in project planning efforts to coordinate frontend development work and deliver projects on time.
- Committed to staying updated with the latest technologies and industry best practices to adapt to evolving frontend development trends and deliver innovative solutions.

SKILLS & KNOWLEDGE

- | | | |
|------------------------|---------------------------|------------------------|
| • Backend Development | • .Net | • HTML&CSS |
| • Frontend Development | • C# | • User Engagement |
| • API Integration | • Angular | • Project Coordination |
| • Team Collaboration | • Debugging Skills | • UI/UX Enhancement |
| • Git | • Code Optimization | |
| • Problem Solving | • Third-Party Integration | |
| • Agile Environment | • Software Debugging | |
| • CI/CD | • Sql Server | |
| • Continuous Learning | • Kubernetes | |

PROFESSIONAL EXPERIENCE

Arcad Digital Solutions

December 2019 — Present

Frontend Developer

- Maintained and refactored legacy monolithic systems, migrating them to modern backend APIs (.Net, C#)
- Integrated RESTful APIs to enable secure and efficient communication between services (GraphQL, Restful APIs)
- Worked with Kubernetes (self-hosted) to deploy backend services, including email handling (Sendgrid) and third-party integrations
- Collaborated with cross-functional teams to ensure backend performance and scalability
- Developed and maintained responsive, dynamic user interfaces using Angular and Material Design
- Applied Agile methodologies and Git version control in day-to-day development
- Contributed to continuous learning initiatives and adoption of new technologies

CTINow

2018 — 2019

Full Stack Developer

- Developed a web application for call center operations (ASP.NET MVC 5, Razor, SignalR)
- Created algorithms for managing inbound and outbound calls
- Integrated telephony systems with Avaya Switch for seamless communication

PIBLOC

2017 — 2018

Full Stack Developer

- Built a human capital management web application (ASP.NET Core 1.1, MVC, Razor)
- Implemented real-time features using WebSockets
- Participated in data analysis to optimize business processes and lead generation
- Integrated third-party services into internal workflows

EDUCATION

Bachelor's degree in Computer Science

September 2010 — July 2015

Universidad de Oriente, Santiago de Cuba, Cuba
