

BINAL PATEL

Phone: 813-568-6559

Email: binalp.work@gmail.com

Current Location: Royal Palm, FL

SUMMARY

- Proficient in full-stack web application development using technologies such as .NET/C#, JavaScript frameworks (Angular/React/Vue), and MEAN stack.
- Experienced in analyzing, updating, and enhancing existing software systems to improve reliability and efficiency.
- Practitioner of Agile methodologies, including Scrum ceremonies, and expertise in the software development lifecycle.
- Skilled in requirements gathering, collaborating with cross-functional teams, and providing technical/functional guidance.
- Proficient in database management using SQL, with experience in RDBMS like SQL Server, Oracle, and PostgreSQL.
- Familiarity with version control systems, particularly GitHub, and understanding of technical debt reduction.
- Strong communication, analytical, and problem-solving skills.

CERTIFICATIONS

- Python For Everybody (University of Michigan) – 2023
- Certified in HTML & DHTML (Star Certified Professional) – 2017
- Certified in Red Hat Enterprise Linux7 (Red Hat Certified System Administrator) – 2017
- Certified in IT Fundamentals (CompTIA Certified) – 2016
- Certified in Secure User (Star Certified Professional) – 2017

HIGHLIGHTS

- .NET, C , ASP.NET, ADO.NET, WCF, Web Services, WPF, Win Forms
- HTML, CSS, APIs, JavaScript Frameworks
- Angular/React/Vue JavaScript, JQuery, Json, Bootstrap, Knockout, Angular JS
- Interpersonal Communication, Collaboration,
- SQL, RDBMS (SQL Server, Oracle, PostgreSQL)
- Software architecture, Object-oriented programming (OOP), Agile methodologies
- GitHub, understanding of technical debt and debt reduction
- Problem-solving, Analytical Skills, Requirements Gathering
- Java, Python, C/C++, JavaScript, .NET

TECHNICAL SKILLS

Languages	Java, Python, C/C++, JavaScript, .NET
Frameworks	ASP.NET, ASP.NET MVC, ASP.NET Core, Entity Framework, ADO.Net,
Databases	SQL, RDBMS (SQL Server, Oracle, PostgreSQL)
Web Development	HTML, CSS, APIs, JavaScript Frameworks (Angular/React/Vue), RESTFUL API
Methodologies	Agile, Scrum, Waterfall
Version Control	GitHub, understanding of technical debt and debt reduction

EDUCATION

- Bachelor of Computer Engineering, Gujarat Technological University - January 2021
- Diploma in Computer Engineering, Gujarat Technological University – July 2017

PROFESSIONAL EXPERIENCE

Diamond Tool Store

May 2024 tp

Website Administrator and Developer

We are seeking a skilled and detail-oriented Website Manager & Developer to oversee and maintain our online presence. The ideal candidate will be responsible for managing website design, development, and backend functionality, ensuring seamless integration with Google Merchant Center and other tools to optimize online performance.

Website Development & Maintenance

- Update and maintain website code using HTML, CSS, JavaScript, and .NET. Ensure website functionality, responsiveness, and compatibility across devices and browsers. Collaborate with design and marketing teams to implement new features or updates. Customer Experience Optimization
- Google Merchant Center Management, Manage product feeds for Google Merchant Center to ensure accurate listings. Optimize product data for search visibility and compliance with Google policies. Monitor performance metrics and troubleshoot errors or issues.
- Backend Operations, Oversee website backend, including server configuration and database management. Perform routine updates, security checks, and backups to ensure reliability. Troubleshoot technical issues related to the website and backend systems.
- SEO & Analytics Integration, Implement SEO best practices to improve website traffic and visibility. Integrate and manage analytics tools (e.g., Google Analytics) to monitor site performance.
- Customer Experience Optimization, Ensure a seamless user experience by addressing loading speeds, navigation, and design consistency. Address user feedback and resolve issues promptly to improve satisfaction

Ebay, San Jose, CA (Remote)

**July 2023 to
April 2024**

.Net Developer

Project Name: Enhancing eBay's Seller Dashboard

Project Description: To improve the functionality and user experience of eBay's Seller Dashboard by developing new features, optimizing performance, and ensuring seamless integration with existing systems.

- Design and implement new features for the Seller Dashboard, including advanced analytics, sales tracking, and inventory management tools.
- Develop and maintain RESTful APIs to facilitate data exchange between the Seller Dashboard and other eBay services.
- Implemented RESTful APIs to support mobile and web client integration.
- Identify and resolve performance bottlenecks to ensure a smooth and responsive user experience.
- Enhanced application performance by optimizing database queries and using caching strategies.
- Write clean, maintainable, and efficient code following best practices and coding standards.
- Collaborated with front-end developers to integrate Angular components with .NET back-end.
- Developed and maintained web applications using ASP.NET MVC and Entity Framework.
- Designed and implemented SQL Server databases, including stored procedures and triggers.
- Worked closely with clients to gather requirements and provide technical solutions.
- Participated in Agile ceremonies and contributed to sprint planning and retrospectives.
- Created unit and integration tests to ensure code quality and reliability.
- Migrated legacy applications to modern .NET Core architecture, improving performance and maintainability.

Rockers Technologies
2023

Feb 2021 to March

.Net Web Developer

Projects Description: A platform that addresses common challenges faced by NGOs, offering donors a curated list of organizations and multiple payment options for streamlined transactions. The system ensures transparency by providing donors with regular updates and detailed reports on the impact of their contributions, fostering trust and accountability in the philanthropic process using .NET, SQL, and Angular.

- Developed and maintained real-time applications using .NET, SQL, and Angular, ensuring optimal performance and security. Hands-on experience for more than two years.
- Collaborated with business and Scrum teams to gather requirements, analyse, and enhance existing systems. Application development using
- technologies such as .NET/C#, JavaScript frameworks, C++,(Angular/React/Vue)
- Utilized Agile methodologies, including Scrum ceremonies, to deliver reliable and efficient software solutions.
- Designed and developed APIs for integrating various systems and services. Implemented responsive designs and front-end architectures to ensure optimal user experiences across devices.
- Contributed to the management of IT systems and networks, supporting a team of users across multiple locations.
