About Me

Full-Stack Developer with 4 years of experience developing robust, data-driven web applications using **.NET, Vue.js, Angular, React, SQL**, and modern **cloud architectures on AWS and Azure**.

Experienced in both frontend and backend development, with hands-on work in **microservices architecture** and **AI-driven features** such as facial recognition and data automation.

Strong background in **project management** and **information security**, focused on building scalable, maintainable, and high-performance systems.

Work Experience

PIXSHARE (Personal Startup) – Full-Stack Developer

12/2022 – Present

- Developed a web-based software solution integrated with AI facial recognition technology.
- Led full software lifecycle development, including requirements gathering, design, implementation, and QA.
- Improved software through data analysis and user feedback.
- Frontend development using Angular16, HTML5, JavaScript, and CSS.
- Backend development in C# with .NET Core & .NET Framework.
- Implemented SQL queries, procedures, and integrated REST APIs.
- Utilized AWS services such as S3, Face Recognition, Lambda, and DynamoDB.
- Deployed software on Azure, utilizing services like App Service, SQL Server, and Storage, maintaining structured development practices.

Project Manager – Top Group

2022 – 2023

- Managed multiple projects in areas such as QMS, SOX compliance, and task management.
- Gathered requirements and wrote technical specifications while overseeing project timelines and budgets.
- Delivered solutions to major clients like ZIM, Bank Leumi, and the Ministry of Health.
- Implemented information systems in global financial organizations and coordinated cross-domain tasks.

Full-Stack Developer – Keter

2023 – Present

- Developing multiple applications simultaneously using .NET 4.5 and .NET 7 for backend development.
- Engaging in frontend development with Angular and Vue.js 3.
- Overseeing end-to-end development, including system architecture and integration of frontend and backend systems.
- Collaborating with business stakeholders to translate requirements into effective software solutions.

Skills

C#, .NET, ASP.NET, SQL | Angular, Vue.js, React | Microservices | AWS & Azure | AI & Data Processing | OOP, WPF, HTML/CSS

Education

Full High School Diploma – Menorat Hamaor June 2019

- Completed 10 units in Computer Science.

Technician in Telecommunications and Information Security – Menorat Hamaor College June 2020

- Specialized in telecommunications and information security systems.

Full-Stack Developer Certification – Sela College June 2022

- Completed 1200 hours of training across frontend and backend technologies.
- Gained hands-on experience in Python, Angular, C#, SQL, MongoDB, and more.
