Skills

- React Native
- React
- JavaScript
- C# / ASP.NET Core
- Blazor
- Flutter/Dart
- PostgreSQL
- Azure
- HTML
- CSS/SCSS
- Linux
- MacOS

Profile

I'm a full stack developer with a strong background in web development and a growing focus on mobile applications. My core expertise is in C# and .NET technologies such as ASP.NET Core, Blazor, SignalR, and Entity Framework, along with React for building modern, scalable web solutions.

I'm currently working primarily with React Native and actively expanding my mobile development skills by learning SwiftUI and Kotlin. I've also explored Flutter and have basic experience with it. I enjoy taking on new challenges and turning ideas into polished, real-world applications.

Education
