SUMMARY

UiPath Certified **Automation Developer** with **5+ years of hands-on experience** designing, developing, deploying, and supporting enterprise-grade RPA solutions using **UiPath Studio and Orchestrator**. Proven track record delivering automation across finance, HR, and healthcare-adjacent workflows in **Agile/Kanban environments**. Strong expertise in end-to-end automation lifecycle, production support, cloud monitoring, logging, and performance optimization.

CORE COMPETENCIES

- UiPath Studio & Orchestrator
- RPA Development & Support (L2/L3)
- Process Analysis & Requirement Gathering
- PDD / SDD Documentation
- REFramework & Exception Handling
- Testing, Debugging & UAT Support
- Production Monitoring & Incident Resolution
- Agile / Kanban (JIRA)
- Logging & Monitoring (Splunk)

TECHNICAL SKILLS

- **RPA Platforms:** UiPath (Studio, Orchestrator, Robots, Insights), Automation Anywhere (prior)
- **Programming Languages:** C#, VB.NET, Python, SQL
- **Databases:** Oracle PL/SQL, SQL Server, MySQL, PostgreSQL
- **Automation Capabilities:** REFramework, OCR, Document Understanding, API Integration (REST, JSON, XML)
- **Tools:** JIRA, Git, CI/CD Pipelines, Windows Services
- **Cloud Platforms:** Microsoft Azure, AWS

PROFESSIONAL EXPERIENCE

Percipere – Consultant Intelligent Automation/ Senior UiPath Automation Developer **Apr 2023 – Jul 2024**

- Led end-to-end delivery of **enterprise RPA solutions using UiPath and Automation Anywhere**, supporting finance, HR, and analytics processes for global clients.
- Conducted **detailed requirement gathering sessions** with business stakeholders, SMEs, and product owners to identify automation opportunities and define scope.
- Authored comprehensive **Process Design Documents (PDD)** and **Solution Design Documents (SDD)** outlining step-by-step workflows, system integrations, exception scenarios, and assumptions.
- Designed automations using **REFramework**, ensuring scalability, reusability, and production-grade stability.
- Implemented **queue-based transaction processing** in UiPath Orchestrator to handle high-volume workloads efficiently.
- Configured and managed Orchestrator components including **queues, assets, environments, robots, triggers, and schedules**.
- Integrated automations with **Excel, email (Outlook), databases, APIs, and internal enterprise applications**.
- Implemented structured **logging and monitoring**, integrating UiPath logs with **Splunk dashboards** for proactive issue detection.
- Supported **UAT, production deployment, and hypercare**, resolving incidents through root cause analysis and preventive fixes.
- Collaborated within **Agile/Scrum and Kanban frameworks**, tracking progress using **JIRA and Confluence**.

- Delivered automations that reduced manual effort by **30–40%**, improving accuracy and compliance.

Percipere – RPA Developer

Aug 2022 – Apr 2023

- Developed and enhanced **UiPath and Automation Anywhere bots** following enterprise automation standards.
- Built reusable components and common libraries to accelerate delivery across multiple projects.
- Implemented **exception handling, retry logic, and detailed logging** to improve bot resilience.
- Worked closely with QA and business teams during **testing and UAT cycles**, ensuring solutions met functional requirements.
- Assisted in **production releases**, version upgrades, and ongoing maintenance activities.
- Supported documentation efforts including PDD updates and operational runbooks.

XLenz – AI/ML Intern

Feb 2021 – Apr 2022

- Developed and evaluated **machine learning models** for classification and predictive analytics using **Python and Scikit-learn**.
- Performed data preprocessing, feature engineering, and exploratory data analysis using **Pandas and SQL**.
- Built proof-of-concept solutions demonstrating integration of **AI/ML logic into automation workflows**.
- Collaborated with senior engineers to translate analytical insights into automation-ready components.

EDUCATION

Northern Arizona University – M.S. Computer Science

Aug 2024 – Dec 2025

Relevant courses: Data Structures, Programming Paradigms, Web Technology, Applied Cryptography, Deep Learning, Algorithms, Databases, Large scale Data Structures, Network Security, Cyber Security Policy and Ethics

Hyderabad Institute of Technology and Management – B.Tech Computer Science

Jun 2018 – Aug 2022

PROJECT EXPERIENCE

Invoice Validation & Fraud Analysis Automation [https://github.com/Aarya1304/UiPath_Invoice/]

- Designed an end-to-end UiPath automation using **REFramework** to validate invoices and identify fraud scenarios.
- Implemented checks for duplicate invoices, missing fields, and high-value transactions.
- Utilized **UiPath Orchestrator queues** for scalable transaction processing and monitoring.
- Created detailed **PDD** documenting step-by-step process flow, validations, and exception handling.

Healthcare Claims Processing Automation [https://github.com/Aarya1304/UiPath_HealthCare_Claims]

- Automated extraction and validation of healthcare claim data using **UiPath Document Understanding and OCR**.
- Applied business rules to flag high-risk claims and route exceptions for human review.
- Generated structured output reports and maintained audit logs.

Bot Monitoring & Logging Framework [https://github.com/Aarya1304/UiPath_Bot_Monitorng]

- Designed a centralized logging and monitoring framework for UiPath bots.
- Integrated UiPath logs with **Splunk** to support operational monitoring and incident response.

CERTIFICATIONS

- UiPath Foundation Certification
[<https://drive.google.com/file/d/1z61ynyOHcd8oFB8dIJYo34hOAWQewBk/view?usp=sharing>]
- UiPath Advanced Certification
- Robocorp Foundation Certification
