ABOUT ME

A passionate and results-driven Full Stack Developer with over 7 years of experience in building dynamic, scalable, and high-performance web applications. Expertise in both frontend and backend technologies, with a strong foundation in database management, server-side development, and UI/UX design. Proven track record of successfully delivering projects from conceptualization to deployment, ensuring seamless user experiences and high code quality.

EDUCATION

2013 - 2017

Bachelor of Computer Science
City University of New York (CUNY)

EXPERIENCE

2023 - Current Firstup, Inc.	Software Engineer - Developed scalable and maintainable backend architectures using Node.js, Express.js, and MongoDB for various applications. - Led the development of frontend features using React.js, improving user experience and performance. - Managed the codebase using Git and GitHub, ensuring version control best practices and smooth collaboration within the team. - Provided mentorship and technical guidance to junior developers, helping them grow their skills in full-stack development. - Oversaw code reviews, ensuring high-quality standards and adherence to best practices for both frontend and backend development. - Managed deployment pipelines, automated testing, and CI/CD processes, ensuring smooth and consistent deployment to production environments. - Coordinated with stakeholders to gather requirements, design features, and prioritize tasks for the team, ensuring project milestones were met on time.
2021 - 2023 Mesh	Full Stack Developer - Architected and developed both frontend and backend features for a range of web applications. - Designed and implemented dynamic user interfaces using React.js, Redux, and Next.js, ensuring responsiveness across devices. - Developed backend services and APIs using Node.js, Express.js, and MongoDB to handle user authentication, data management, and integration with third-party services. - Implemented server-side logic and databases, working with both SQL and NoSQL databases like PostgreSQL and MongoDB. - Integrated payment gateways and social login features, allowing users to securely authenticate and perform transactions. - Collaborated closely with cross-functional teams, improving app performance and ensuring timely delivery of new features in an Agile environment.

2019 - 2021

Retool

Frontend Developer

- Designed and developed user interfaces for web applications using HTML5, CSS3, and JavaScript (ES6+).
- Built responsive, cross-browser compatible UIs, ensuring a seamless experience on mobile and desktop.
- Implemented modern frontend technologies such as React.js and Angular to build dynamic single-page applications.
- Collaborated with UI/UX designers to translate designs into interactive web pages using best practices.
- Integrated third-party APIs and libraries to extend application functionality and enhance user experience.
- Focused on optimizing frontend performance, including reducing page load time and improving SEO.

2017 - 2019

Liceria & Co.

Freelance Web Developer

- Developed custom WordPress websites, utilizing themes, plugins, and custom PHP for client-specific needs.
- Built responsive, interactive frontend features using React.js, integrating APIs for dynamic content and user interactions.
- Managed full project lifecycle, from gathering client requirements to deploying websites on hosting platforms.
- Optimized websites for performance, SEO, and cross-browser compatibility, improving client traffic and engagement.
- Collaborated with clients to deliver tailored solutions that met business goals and ensured high user satisfaction.

SKILLS

Languages & Frameworks:

JavaScript, TypeScript, C#, .NET Core, ASP.NET MVC, React.js, Angular, Vue.js, Node.js, Python

Front-End:

React, Redux, Angular, Vue.js, HTML5, CSS3, SASS, Material UI, Next.js

Back-End:

.NET Core, ASP.NET MVC, Node.js, Express.js, NestJS, Java, Spring Boot, Python

Databases:

SQL Server, MySQL, PostgreSQL, MongoDB

Tools & Platforms:

GraphQL, Git, Azure DevOps, Webpack, Gulp, Docker (basic), Jira, Agile/Scrum
