

SANDRINE LOBE, Project Manager

Miami, (954) 859-8296, lobe.sandrine@gmail.com, [LinkedIn](#)

SUMMARY

Results-oriented Project Manager with over 7 years of experience leading full SDLC lifecycle for complex platform programs. Proven ability to drive projects from inception to delivery, optimizing processes to increase team productivity by 25% and decrease development cycle time by 30%. Expertise in Agile/Scrum, budget governance, stakeholder communication, and cross-functional team leadership. Committed to delivering high-quality software solutions and exceptional customer experiences for RD Global Inc.

WORK EXPERIENCE

06/2025 – Present

Project Manager

Fort Lauderdale

NUMBRICS

- Oversee the complete SDLC project lifecycle, encompassing planning, execution, monitoring, and delivery of multi-initiative platform programs.
- Spearheaded the platform MVP launch within 6 months, successfully onboarding over 100 SMB beta customers and facilitating early-stage revenue generation for the company.
- Engineered the integration of 4 strategic third-party services (NMI, Plaid, Avalara, QuickBooks), enabling automated financial workflows for more than 100 users.
- Orchestrate the multi-initiative program roadmap across engineering, product, AI, and operations streams, managing change management activities for each release.
- Govern the program budget, including SaaS platform development, API integrations, and AI services consumption, while producing executive-level KPI and OKR reports.
- Enhanced team productivity by 25% through strategic improvements in Agile sprint planning, resource forecasting, and workflow optimization.

01/2019 – 03/2025

Project Manager / Product Owner

Hollywood

SHIJI GROUP

- Directed cross-functional project teams, including engineering, UX, and business stakeholders, to deliver enterprise platform features and managed change management plans for each major release.
- Managed project scope, schedules, and deliverables across multiple parallel initiatives, adhering to strict client SLA governance and executing resource forecasting.
- Facilitated Agile ceremonies such as sprint planning, backlog refinement, and retrospectives, alongside conducting stakeholder workshops to align expectations and communicate program governance standards.
- Monitored project health utilizing KPI and OKR dashboards, analytics, and performance reporting to proactively identify and address risks before escalation.
- Decreased development cycle time by 30% through optimized backlog prioritization, SDLC process enhancements, and refined Agile sprint cadence.
- Successfully delivered enterprise hospitality platform deployments across multiple global regions, providing comprehensive support for large-scale change management and enterprise client implementations.

06/2018 – 01/2019

Project Manager

Paris, France

EI MANAGEMENT

- Spearheaded project planning activities, including scope definition, timeline development, resource forecasting, and risk mitigation strategy implementation.
- Coordinated cross-functional delivery teams across engineering, operations, and business stakeholders, applying robust change management frameworks to ensure seamless user adoption.
- Delivered multiple technology implementation projects on schedule, within scope, and under budget, by improving SDLC governance and fostering enhanced collaboration between technical and business teams.
- Augmented project visibility through structured stakeholder reporting, comprehensive program governance documentation, and proactive status tracking.
